

## Models DMC 2000S, 2000X, 2000XB

Personal Electronic Dosimeter

**DMC 2000S**  
model MG-115663

**DMC 2000X**  
model MG-D20-A002

**DMC 2000XB**  
model MG-D20-A001

The **DMC 2000S** features flat energy response to X-rays and gamma field from 50keV to 6Mev and linear response to dose rate fields from natural background up to more than 1000 R/h.

- The DMC 2000S is user friendly, lightweight and waterproof
- Can be used as a Stand-alone device or intergrated into a dosimetry system
- Audible and visual alarms
- Large internal histogram memory
- Self-testing diagnostics (battery, detector and parameters)
- Hands-free communication, pass-by exchange

The **DMC 2000X** is an X-ray and Gamma detection dosimeter featuring dose rate and program-mable alarms. It is user friendly, lightweight and water-resistant. Can be used in autonomous mode or integrated into a dosimetry system.

- Audible and visual alarms
- Detection active self-test
- High autonomy
- Integrated history
- Hand free communiation, pass-by data exchange
- Compact, rugged, economical

The **DMC 2000XB** is an X-ray/Gamma and Beta detection dosimeter, featuring, dose rate and programmable alarms. The DMC 2000XB is user friendly, lightweight and water resistant.

- X-ray/gamma energies: 20 keV to 6 MeV
- Beta energies 60 keV to 3.5 MeV
- Dedicated to simultaneous measurements of X-ray, gamma and beta radiation
- Small, light, ergonomic, compact, and rugged
- Compliant with international standards and local rules
- Hands-free communication reading system with data centralization
