Model 3094A-R and Model 3093A-R Remote Probes are waterproof and can be used underwater to a depth of 100 feet. When a remote probe is connected, the Area Monitor's internal detector is disabled.

The Model 3094B-R and Model 3093B-R Remote Probes are not waterproof and can be used remotely at a distance of 300 feet. When the remote probe is connected, the Area Monitor's internal detector is disabled.

Features:

- Compatible with 3096-3 + 3090-3 Area Monitors
- Remote dose rate measurements
- Converts the meter into contamination monitor
- Sensitive for low levels of xray and gamma radiation
- Easy maintenance and tube replacement
