

model  
**MG-RTM-9159**

## Features

- DRM-2: two energy compensated, auto-switching GM tubes, 5 uR/hr to 1000 R/hr (0.05 uSv/hr to 10 Sv/hr)
- DRM-2D: CsI detector for greater sensitivity for Homeland Security & Medical monitoring applications
- LeD Display, audible Buzzers and Visual Indicator Lamps
- aC power with NiMH battery backup (8 hrs)
- Rugged, lightweight metal case with magnetic amounts
- Configuration and calibration software included
- 900 MHz or 2.4 GHz WRM2 Radio (FHSS)

### **DRM - 2 ( D )** All-in-One Data Radiation Monitoring System

The DRM-2 is a compact, all-in-one area radiation monitoring system with LCD Display, Visual and audible alarm indicators.

The DRM-2 offers unparalleled features for a stand-alone, TCP-IP networked or wireless area monitoring solutions.
